DEMOCRATIC TICKET.

FOR CONGRESS.

HON. GEORGE G. GILBERT,
OF SHELBY.

H. H. HENNINGER,
Of Wayne county is a candidate for State
Treasurer, subject to the action of the
Democratic party.

We are authorized to announce the
HON. T. Z. MORROW
As a candidate for Circuit Judge, in this,
the Twenty-eighth Judicial district, sub-
ject to any action of the Republican party.

THE edict has been sent forth that the tariff must be let alone, and that the Republican party will defend the Dingley bill against all comers. There can no longer be any doubt. No one will now stand with the Republican party believing that that party stands for tariff revision. It stands committed to the present tariff. Although the Philadelphia Press itself, a staunch organ, and ex-Postmaster General Smith's own paper, trying to get into the tariff revision band wagon, which it thought would head the procession, has said that the declaration of the Iowa platform represented the progressive element of the party, and although the Republican organs throughout the country echoed the same sentiment, the Baltimore American going so far as to brand the present tariff as tariff for trusts only, the administration has seen fit to ignore this just demand. It has seen fit to ally itself with the forces that are opposed to any revision whatever of the tariff. And you may look the country over and you will see that the Trusts are without exception the strongest opponents of tariff revision. The President appears to be hostile to the Trusts. He seems to want to strike them a blow. He pronounces them a menace to our government. He says he is seeking a remedy for the evils of the Trusts. He professes to be after them with all of his rough rider determination. But, regrettable as is the necessity, the people will have to ask themselves the question, is he sincere?

He cannot be the statesman the people give him credit for being and be blind to the fact that the tariff fosters Trusts. The Iowa farmers see that. Republican conventions have declared that the tariff fosters Trusts and shelters monopoly. Until the President admits those facts, facts enunciated by his own party, he will have to see his motives questioned. The leaders refuse the direct remedy, the effective remedy, the immediate remedy, and pretend to be looking for something else. They cannot in doing so, escape the imputation, the just imputation that they are putting up a bluff game in which the people are the victims.

Tariff revision is absolutely the first step in the fight against the Trusts. That party which ignores its dallies with the Trusts it pretends to fight, and all of its talk is mere buncombe.

THE SIGNAL is 15 years old today. Its publication was begun in 1887. James Maret was its first editor, W. R. Cress was next in charge. After him came J. W. Brown, E. B. and James Maret for a time, then E. B. Smith took charge and ran the paper under the name of Mt. Vernon Eagle until Oct. 1896, when he sold the plant to James Maret who held the helm until December 1st 1899 when the present owner took charge. Altogether the paper has had pretty fair sailing, though like other business enterprises has had some

heavy jolts along the line, but it still lives. Opposition papers that have been started to down it found it a rocky road and didn't travel long nor far. The SIGNAL has stood the storms and is on a firm basis to-day and we are excusable in using the old hackneyed phrase, "we've come to stay."

REVISION AND ANTI-REVISION REPUBLICANS.

Not only does the abdication of the Speaker, because of the tariff reviews of his constituents, show division and schisms in the rank of his party, but the following utterances from Republican sources show it as well.

REVISION.

"Shall we continue a tariff on articles that yield no revenues, need no protection, and are articles of export. How can such a policy be defended? It simply inures to the benefit of those who secure control of any such commodity since by its aid they can fix exorbitant prices in the domestic market."—Congressman Babcock.

"There seems to be but one way to deal with the Trusts, and that involves adjustments of the tariff on the products of the Trusts."—Secretary of War Root.

"We favor any modification of the tariff schedules as will prevent their affording shelter to monopoly."—Iowa Republican Platform.

"It must be confessed that in many instances protection has been made wholly superfluous so far as the interest of industry are concerned, and **OPPRESSIVE SO FAR AS THE PEOPLE ARE CONCERNED.**"—Baltimore American (Rep.)

"The people who cast the votes have the power to enforce the order that they be protected against foreign business rivals, whom they are already underselling in the foreign market. And every proof of the misapplication of the high tariff system, such as Mr. Schwab furnishes, will incite the voters to exercise their authority at the polls."—Ex-Postmaster General Warnmaker.

"We favor such revision of the tariff as will place upon the free list every article and product controlled by any monopoly."—Idaho Republican platform.

"I tell you if we Republicans do not take matter in hand and adjust our tariff to prevent inequalities and abuses, we shall not have the opportunity."—Mr. Foss the Republican candidate for Congress in the Eleventh Massachusetts District.

"There seems to be but one way to deal with Trusts honestly and that involves the adjustment of the tariff on the products of the Trusts."—Secretary Root.

ANTI-REVISION.

"I have never advocated putting Trust goods on the free list, nor do I know any Republican who has. We have always antagonized this proposition, which is of Democratic origin."—Chairman Babcock.

"Tariff revision is neither a logical nor expedient way to get at the Trusts."—Congressman Littlefield.

"I cannot acquiesce in administering free trade poison to cure the Trust evil."—Speaker Henderson.

"The efforts of the Democrats to make an issue out of the allegation that the manufacturers are selling goods cheaper abroad than at home will fall flat."—Chairman Babcock.

"It would be suicidal to revise the tariff."—Congressman Hopkins

"There will be no revision of the tariff."—Authorized statement given to the press by the President after the conference at Oyster Bay.

"The Republicans will not revise the tariff during the coming session nor in the next succeeding Congress."—Representative Cannon, Chairman of the Appropriation Committee of the House of Representatives.

"The real evils connected with the Trust cannot be remedied by any change in the tariff."—President Roosevelt in his recent speech at Cincinnati.

From the above expressions of leading Republicans, it is manifest that there is a difference of opinion concerning the manner in which the Republican campaigners will handle the tariff and Trust question during this campaign. The decision of the Oyster Bay conference and the subsequent statement of the President "that there will be no revision of the tariff" is forcing the people of the country to think that the Trusts have been somewhat influential in revising the President's opinions and editing the Republican tariff revisionists past, present and future political statements.

The President says "All insincere advocacy of the impossible is dangerous." Which side of the expressions is dangerous? The revision is dangerous to the Trust alone, and the anti-revision to the people only. Is there a line of demarcation upon which the Republicans can stand? The echo answers none.

SCRAPS.

(BY JET.)

It is better to avoid the faults of another than to talk about them.

One gossip in a neighborhood is enough to keep everybody by the ears.

You cannot make a fortune by grumbling about the success of other people.

Mr. Straitlance—Awful to see Indians drink so, isn't it?
Prison Pets—You bet! It's a clear waste of good liquor.

J. Pierpont Morgan will not annihilate President Roosevelt during the next ten days. At least he ought not to jump on a cripple.

When two judges decide the same question differently and a third finds them both wrong, men naturally marvel as to the mysterious processes of legal reasoning.

The Mayor of Brookfield, Mo., has threatened to fine every one in that city \$25 who allows a weed to grow over six inches high on their premises. Such a rule enforced in Mt. Vernon would send many of us to the county poor farm.

The President's hurt was not bad enough to give the doctors half a chance.—Cin. Enquirer.

Well, just wait and see. Top notch doctors of the brand who have waited upon wounded presidents and other noted personages in the past have shown their skill to rather a disadvantage. President Roosevelt is not out of the woods yet.

The eagle was first used on American coins in 1788, on cents and half cents issued from the Massachusetts mint. It was adopted in the plan of a national coinage as a design upon all gold coins and on the silver dollar, half dollar and quarter dollar. The design of the eagle was at one time suggested for the national flag, but was abandoned.

A company has been formed at Lafayette, Ind., to manufacture a pocket telephone. The receiver and transmitter are so shaped as to fit the mouth and ear. An aluminum box is fastened to a telephone pole, a key fits this box and when inserted calls the telephone exchange. The caller gives the number he wants and the insertion of his key cuts off all persons on the line until he is through.

A Kansas widower who got married again in two weeks after his wife died, went out and tried to hush up the charivari crowd by telling them that they ought to be ashamed to make such a noise around a house where a funeral had occurred so lately. This is pretty near equal to the story of a fellow who killed both his father and his mother and then pleaded for mercy on the ground that he was an orphan.

Out in California an irrigation ditch was being dug and iron pipe for it was strung along the line to be placed in it. When the men began to lay the pipe they were found to be full of rabbits. An examination showed every pipe to be inhabited. The rabbits found they

were safe from hawks and animals which preyed upon them, and took refuge in the pipes. The men failed to scare the rabbits out by beating on the pipe so tried smoking them, but the bunnies were crowded in so tight the smoke wouldn't work. They were finally punched out with a long pole.

A drunken man staggered into a church one Sunday and sat down in the pew of one of the deacons. The preacher was discoursing about prevalent popular vices. Soon he exclaimed: "Where is the drunkard?" The drunken man was just far enough gone to think the call personal, so rising heavily, replied: "Here I am," and remained standing while the drunkard's character and fate were eloquently portrayed. A few minutes later the preacher reached another head of his discourse, and asked: "Where is the hypocrite?" Gently nudging his neighbor, the drunkard said, in an audible whisper: "Stand up, deacon, he means you this time. Stand up and take it like a man, just as I did. It will do you good."

The Wayland Homestead give the following condition of crops on the sand ridge in Clark county, Mo: "The corn on the sand ridge is getting nearly thirty feet high with an ear at each joint. It is feared that the ears can't mature because the stalks take up so much room, and if they do the corn will have to be shelled at the saw mills as ordinary elevators can't handle their size. Then there are those big apple trees hanging full of juicy fruit cabbage as big as a Colorado mountain, watermelon vines running so fast that the boys can't keep up, and everybody's getting as fat as Col. Shouse (the colonel had to quit eating). Even the mosquitoes are as big as quails and are so hungry for lean meat that when a fellow came back from Ohio, he had to be kept in a wire cage a few days to prevent the mosquitoes from eating him up—bones and all."

The people of Ohio county should be commended for their loyalty to the Home Telephone Company. Four years ago some of our enterprising citizens, recognizing the need for a telephone system in Ohio county risked their money and efforts in supplying the need, and put in an exchange in Hartford with lines reaching out to every important section of the county. Soon after the organization of the Home Company the Cumberland Telephone & Telegraph Company, a foreign corporation, entered the field and offered various inducements to our people to give their patronage to that company, but Ohio county people very sensibly reserved their patronage to the Home Company. It is fortunate for Ohio county people that they took this sensible view of situation. If the Home Company were out of the way this foreign corporation would raise their toll rate to prices exacted in other towns where it has no competition. The Home Company is owned and operated by home people and should have the patronage of home people.

Prof. Hale gave a most captivating presentation of Dickens' Christmas Carol, at the College chapel last Tuesday evening. The characters were adroitly impersonated, and the highest degree of animation was thrown into the unique scenes which characterize Dickens' writings. It was a pity so many did not hear the announcement of this entertainment. Prof. Hale will come again. The college realized a snug little dividend from the receipts.

SOFT CORE

Like the running brook, the red blood that flows through the veins has to come from somewhere.

The springs of red blood are found in the soft core of the bones called the marrow and some say red blood also comes from the spleen. Healthy bone marrow and healthy spleen are full of fat.

Scott's Emulsion makes new blood by feeding the bone marrow and the spleen with the richest of all fats, the pure cod liver oil.

For pale school girls and invalids and for all whose blood is thin and pale, Scott's Emulsion is a pleasant and rich blood food. It not only feeds the blood-making organs but gives them strength to do their proper work.

Director Geo. E. Roberts of the United States Mint, has made a final estimate of the production of gold and silver in the United States in the year 1901, the amount being \$111,795,100. The value of gold produced was \$78,660,700, and of silver \$33,128,400. This seems to be an enormous sum to be dug from the earth in twenty States and Territories, but the farmers of a single State like Iowa produce from the soil double that amount in value every year.

The Bank of Mt. Vernon will about the 10th of this month, declare a 7 per cent dividend, besides carrying over 3 per cent to the surplus. This is sufficient evidence of the splendid way in which Cashier Richards and assistant Cashier Furnish are running the business.

The following which has been preserved for nearly a century will doubtless be of much interest, especially to the older citizens, some of whom were acquainted with the parties: "Know all men by these presents that I Thos. A number our Rockcastle boys will be pleased to read the following: "The controller of the treasury sustained the contention of Capt. C. C. Calhoun relative to Kentucky's Spanish war claim, and a warrant for \$120,860 63 an excess of \$52,900 03 over the original allowance, was drawn on the United States Treasury. The money will be disbursed to the officers and men of the first three Kentucky regiments about Christmas, each private receiving approximately \$50.

Wednesday was the Jewish New Year. It was the 5663rd since the beginning of creation and was celebrated all over the world, as it is a day of great rejoicing among the Hebrews. The orthodox Jews celebrate the occasion by holding services from sundown Wednesday until sundown tonight, (Friday,) the Reform Jews held services for only the first twenty-four hours. To-day, Yum Kipper, the Jewish day of atonement and the most sacred day in the Hebrew year will be celebrated, during which time the orthodox Jews will fast and pray.

GOOD ROADS CONVENTION.—Arrangements for the Good Roads Convention, which will be held in Lexington October 21st and 22nd, were made Friday by the Executive Committee of the Kentucky Good Roads Association, which met at Lexington. It was decided that each County Judge, each commercial organization and each Mayor in the State be requested to appoint five delegates to the Convention. All manufacturers of road machinery are invited to send their representatives to the Convention and exhibit their machines. The local committees in Lexington will arrange for the building of a sample road near that city during the progress of the Convention.

O'BANNON.—Mrs. Dr. W. B. O'Bannon died at Stanford Sunday night after an illness of five weeks. Mrs. O'Bannon was Miss Ellen Frith of Brodhead, a sister of T. S. and J. G. Frith. Early in life she united with the Christian church and was a consistent follower and a most untiring worker in the cause. Foremost in all good works, her deeds will live after her. She leaves a husband, two sons and two daughter. A portion of the death notice in Interior Journal reads: "Saturday night the good woman called husband and children to her bedside and after a short talk told them all good bye. It was a pathetic scene and one that will linger long in the memories of that family. Shortly after-noon Sunday she sank into unconsciousness from which she never revived. After services at the Christian church at 10 o'clock this morning by Rev. J. W. Hagan and Eld. B. J. Pinkerton the remains were laid to rest in the Buffalo Springs Cemetery.

We have been informed that our report of the trouble between John Graves and Mitchell Norton, as given in our last issue was in part incorrect. We stated that Robt. Norton, Mitchell's son, got Graves' pistol and shot him with it, which is a mistake. He shot Graves with his own pistol after which he did get Graves' pistol, but no further injury was done Graves after his pistol was taken from him. We are also told that Parks Reynolds had no pistol on the occasion and that "he threw his hand on his pistol and told Bullock to stand back," is a mistake.

A New Danger—"What do you think we had better do about the trust business?" asked the apprehensive citizen.

GOES LIKE HOT CAKES.

"The fastest selling article I have in my store," writes druggist C. T. Smith, of Davis, Ky., "is Dr. King's New Discovery for Consumption, Coughs and Colds, because it always cures. In my six years of sales it has never failed. I have known it to save sufferers from Throat and Lung diseases, who could get no help from doctors or any other remedy." Mothers rely on it, best physicians prescribe it, and all druggists guarantee satisfaction or refund price. Trial bottles free. Regular sizes 50c. and \$1.

Mrs. Hoax—My new servant girl's a good one, but she makes my husband so mad. He's a crank about his coffee, you know.

Mrs. Hoak—She makes it just right, but that's the one thing he likes to kick about, and now he hasn't any excuse, don't you see?—Philadelphia Record.

HIS LIFE IN PERIL.

"I just seemed to have gone all to pieces," writes Alfred Bee, of Welfare, Tex., "billiousness and a lame back had made life a burden. I couldn't eat or sleep and felt almost too worn out to work when I began to use Electric Bitters, but they worked wonders. Now I sleep like a top, can eat anything, have gained in strength and enjoy hard work." They give vigorous health and new life to weak, sickly, run-down people. Try them. Only 50c. at all druggists.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J.
